

Cardijn College is proud to host the

Southern Regional Workshop / Competition

on

Friday 28th July from 9am -2:30pm

This Workshop will introduce teachers and students to the various Robocup Junior Challenges that exist in our competition, providing all participants with the opportunity to get hands-on experience. Students in teams of up to 3 will learn the skills of design and programming robots to meet the challenges of Rescue, Soccer, Dance and Sumo.

Schools can submit as many teams as they like (no prior experience necessary)

The first half of the day will be all about design / learning / programming / debugging.

The second half of the day will be some friendly competition and putting practice into action.
